

# MRx Select Savings

As your pharmacy benefit manager, Magellan Rx Management wants to help you and your family get affordable access to specialty medications.

We've partnered with Payer Matrix, a patient advocacy company, to bring you the MRx Select Savings program. This program helps lower your healthcare costs by seeking sources of alternate funding for select specialty drugs by using manufacturer assistance programs.

You are getting this letter because you take a high-cost specialty drug and the MRx Select Savings program may help you save money.

## Key points of the program:

We do all of the work to help you save money.

This program could save you up to 100% of your current out-of-pocket drug costs.

You are automatically enrolled when your plan signs up for the program. You will need to sign a consent so Payer Matrix can work on your behalf. If you do not sign the consent, you may not have prescription coverage for these medications.

## What happens next?

One of Payer Matrix's Reimbursement Case Coordinators will be calling you soon to go over the details of the program.

If you have any questions about your pharmacy benefits, please contact us at 1.800.424.0472.
